

You all know me as the guy who came to the boat shows for the last five years saying I wanted to buy a Jefferson some day. I even visited your facilities in Jeffersonville Indiana. Over those years the Jefferson Sales and Management team helped me understand more and more about the quality and reputation of Jefferson Yachts and most importantly the integrity of the people behind the product. I am now the proud owner of a 46' 2001 Jefferson Rivanna Cockpit Motor Yacht that I am embarrassed to say I did not buy directly from Jefferson Yacht Sales only because of the limited availability of this model and options. As I went through the purchase process the Jefferson staff helped me evaluate this boat and provided advice, design drawings and background information full well knowing the purchase situation. The level of interest and commitment that Jefferson has to satisfying the need of its customers was above my expectations and I want to thank you all for helping me during the purchase and afterwards with resolving some of the minor problems that I might add were not even your responsibility.

Now for my testament of the ability of this vessel to comfortably handle what ever the Atlantic could throw at us on a twelve day trip from Scituate Ma to Clearwater Fl; the boat just took it all in stride; the spin off effects of hurricane Helena, and a fierce thunderstorm. I never felt intimidated by the bad weather conditions and in good conditions it was like being on a cruise ship. This is all from the captains prospective, but if you ask the first mate what she thinks about the accommodations the answer would be "this is nicer then home". We plan to retire in a couple of years and are looking forward to extensive travel.

Thank you all,
Ray and Arline Cutro
